

## **Sustainability policy**

Walmart México and Central America recognizes the protection of the environment as one of its guiding principles and a key component of its business strategy. Its mission is to improve the quality of life of families in Mexico and Central America by offering quality products and services, affordable in a way that is sustainable for people and the environment. To achieve this we are committed to:

- Ensure that our products and services protect and conserve the environment, by achieving our objectives, complying with existing legislation and pursuing continuous improvement; as well as promoting and consolidating a sustainable culture among our associates, suppliers and customers.
- Train our associates to comply with our environmental commitments.
- Investigate and promote the development of new technologies, services and products that reduce pollution and contribute to maintain environmental sustainability during the construction, operation and maintenance of our stores, distribution centers and offices, as well as in the distribution of goods.
- Work together with our suppliers to meet the needs of our customers with safe products and with the least possible environmental impact.
- Monitor and improve our environmental performance through measurable and achievable objectives.
- Use natural resources efficiently, adopting pollution prevention and environmental management best practices.
- Mitigate climate change by reducing greenhouse gas emissions in our operations and in the supply chain. Assess and manage our reputational, regulatory and market risks related to climate change.
- Manage waste responsibly with focus on prevention and actively impulse the transition to a circular economy.
- Promote communication with authorities, customers, suppliers and partners regarding the progress of our environmental objectives. Maintain a continuous dialogue with our stakeholders on environmental issues.
